

Texas Licensed Fishing Guide & Instruction Service Richland Chambers Lake, Lake Bardwell and Lake Fairfield.

- Texas Licensed Fishing Guide
- I spent over 30 years developing my skills, techniques, and knowledge of jig fishing for crappie and other fish species.
- I fished in Regional Bass Tournaments for a few years. I enjoy the excitement of competitive fishing, but I much prefer being a fishing guide and taking people out so they can catch fish.
- My greatest joy is passing my knowledge and skills to people with less experience. If I can help someone become a better fisherman, then I have done my job well.

Equipment

- 2006 Mako 2101 center console bay style boat. Added features include 101 lb thrust troll motor, Lowrance 332C sonar with GPS, front mounted sonar, Biosonix fish activator, bimini top, two live wells, two electronic anchoring systems, and 200hp Mercury Optimax Motor.
- The boat includes all necessary tackle and gear for any species of fishing.

I provide all equipment, snacks, life jackets, and non alcoholic beverages. You must provide your own fishing license and proper clothing. You may bring your own alcoholic beverages.

Trips are available for morning, afternoon or night fishing. We can fish for what is biting or for any species you wish to pursue. I specialize in Sand Bass, Hybrid Stripers, Crappie, and Bream.

I guide for individuals or family groups. I strongly support and encourage people to take kids fishing. Children are our future. Let's give them a fun and positive experience they can cherish for a lifetime.

Corporate or company trips, large groups, clubs, church groups provide all fishing equipment, and will enlist other guides to help meet your needs. I will assist in finding accommodations, according to availability. At least 30 days in advance notice is required.

For corporations and business I will provide my services for your clients on a one time, or long term contract basis, with emphasis on featuring your companies attributes. I can't sell your product, but I can present your company in a positive fashion.
